## Builders of Our Navy

Every Firm So Engaged Losing Money.

EACH PAYING HEAVY PENALTIES.

Rumors of a Ship-Building Trust Denied at the Navy Department—Hundreds of Dollars Being Paid to the Government Daily—Other Dispatches from Washington.

WASHINGTON, Aug. 24.—Every vessel being fit for the new navy is now under a penalty for delay in complying with the requirements of the contract. Saturday the Quintard Iron works of New York began paying penalties of \$50 per day on each of the two vessels now under construction by them. These vessels, the Concord and the Bennington will be finished in May, 1890, and during the intervening time the contractors must forfeit to the government \$100 for each of the six working days in every week.

There has been a rumor about the navy department for several days that a shipbuilders' trust has been formed with a view to compelling congress to make larger appropriations for the building of new vessels. There seems to be no ground for this report other than the fact that on Thursday last, when bids for five new cruisers were opened at the navy department, both the firms that made proposals failed to limit them to the appropriations, viz: \$700,000 for each of the 2,000-ton cruisers, and \$1,100,000 for each of the 3,000-ton steel vessels. It is asserted by naval officers who are familiar with shipbuilding interests that no such trust has been contemplated, and to further prove this it is stated that Henry Scott, of the Union Iron works of San Francisco, was prepared to submit bids within the appropriations, but just before the opening he received a telegram from the manager of the works, directing him not to do so. After careful consideration of questions involving the offering of bids for these cruisers, it was decided after Mr. Scott had left for Washington that the works could not build them without pecuniary loss.

Some of the penalties now being paid on vessels in course of construction are quite large. The Columbia Iron works at Baltimore, the company that can afford least of all ship building firms to lose money, is paying a penalty of \$200 a day on the Petrel, for although that vessel is completed, she has not been accepted by the government. The penalties will continue until the vessel is formally accepted by the government. The Baltimore, one of the vessels at the Cramp works, is earning a penalty of \$100 a day, but this will continue only until Oct. 15 next, when she will be completed. At the Union Iron works, of San Francisco, the Charleston is now undergoing repairs under a penalty of \$100 a day.

The Vesuvius, under contract to the Cramps, is paying a penalty of \$20 a day, and this will end Sept. 1, provided her pneumatic guns stand a satisfactory test.

An Ohio Cadet in Trouble.

WASHINGTON, Aug. 26.—Adj. Gen. Kelton has received an inquiry whether a cadet dismissed from the naval academy by court-martial is there by barred from entrance to the military academy. Congressman Burton, of Ohio, had a competitive examination in his district for a vacant cadetship at West Point. The successful candidate was a young man who had been court-martialed and dismissed from the naval academy for hazing. This bars him out of the naval academy forever, and the question is raised as to his eligibility to West Point. There is nothing in the law that would prevent the appointment of this young man to the West Point academy. The regulations for the admission of cadets require that the candidate shall have a good moral character, and it has always been left to the congressman making the appointment to decide upon that point. The congressman in this instant will doubtless be informed that the young man will be acceptable to the department if he will take the responsibility of nominating him.

Rumors About Our Minister to Hayti.

WASHINGTON, Aug. 26.—Rumors are afloat that President Harrison has determined to revoke the appointment of Frederick Douglass as minister to Hayti and appoint a white man, who would be more acceptable to Haytians, both of the Hippolyte and Legitimite factions. Mr. Douglass when asked about the matter declared he had received no intimation that his appointment would be cancelled, and that he would not feel the least bit humiliated if such action were taken, as he had not sought the appointment.

Assistant Secretary Wharton, of the state department, when asked about the probable reaction of Mr. Douglass' appointment, said he had heard nothing about it. The rumor finds but few believers, and Mr. Douglass himself expects now that the contest between Legitimite and Hippolyte is over and a provisional government established in Hayti, and that he will sail for Port-au-Prince about the middle of next month.

Troops to be Sent to Alaska.

WASHINGTON, Aug. 26.—It is probable a company or two of infantry from the military division of the Pacific will shortly be detailed for duty in Alaska. A number of prominent citizens of Sitka have petitioned President Harrison for a detachment of regulars for the protection of life and property in the territory and it is understood that Secretary Proctor favors the proposition and has

so much to the president there have been no troops in Alaska since 1873, when they were withdrawn, after having been located there in considerable force from the date of purchase of the territory in 1867. Gen. Jefferson C. Davis was the first commanding officer ever stationed there, the recent seizure of the illicit sealers in Behring Sea and the small force of deputy marshals in Sitka may have hastened this determination on the part of the government.

Now It's Woolen Mills.

PHILADELPHIA, Aug. 26.—A syndicate of English capitalists is negotiating for the purchase of the extensive woolen mills of James Lees & Sons, at Bridgeport. It is understood the syndicate will accede to the price named by the firm, which is said to be about \$500,000. The mills employ about 700 hands.

ANOTHER DAM BREAKS.

Thirty-Five Million Gallons of Water Suddenly Let Loose.

PROVIDENCE, R. I., Aug. 26. The Spring Lake reservoir, near Fiskville, in the southwest corner of Cranston, about fifteen miles from this city, which supplies a number of mill villages along the Pawtuxet river, burst Sunday afternoon. Three persons were drowned and some damage done to property. A man named Yeaw, who was about a quarter of a mile off, noticed the water coming through the masonry of the dam, in a stream about as big as a barrel. The hole was apparently growing very rapidly. The only living object in sight was a cow a few hundred feet across the field, which Yeaw succeeded in rescuing, although the water was up to his neck.

Meanwhile down the valley were Mrs. Greene Tew, aged 60, a Mrs. Hawkins, aged 90, and Mrs. Tew's son, 7 years old. They were walking through a strip of wood, and were overtaken by the flood and drowned. Their bodies were found in the wood through which the water quickly ran until it emptied into Pawtuxet river. The river rose rapidly and caused considerable alarm among people along its banks who thought that the Pongawsett reservoir, the biggest in the state, had gone. Many of them left their houses and fled, but the flood subsided as rapidly as it came. The path of the water from the reservoir was through a thickly settled country, and the only damage to the property was the wrecking of a stable belonging to Russell Mathewson, the cupizing of Dr. E. K. Clarke's carriage shop, and the demolition of three road bridges.

The dam was built in 1887 for service of the Pawtuxet Valley company, redeeming a small swampy pond, locally known as Spruce lake. The reservoir covered eighteen acres and contained about thirty million gallons of water. The dam is 925 feet long, 17 feet 9 inches high and 8 feet wide on top, and 35 feet wide at the bottom. The gap left by the water is between 60 and 70 feet long. It is just above the waste pipe. No examination has been made to learn the cause of the break. The man Yeaw is the only witness to any part of the casualty. The reservoir was practically emptied.

The cause of the bursting of the dam is believed to be a spring that existed under the middle dam which undermined it. Earl Dodge 9 years old was with the party that was overtaken and drowned. He escaped with bruises by clinging to a tree.

NO FOOD FOR SIXTEEN MONTHS.

The Strange Case of a Fifteen-Year-Old Boy Near Galena, Ill.

GALENA, Ill., Aug. 26.—The case of Thomas Hull, Jr., the 15-year old son of Thomas Hull, of Vinegar Hill, six miles from Galena, is one of the most remarkable ever reported among those persons who are compelled to abstain from food for long periods. One year ago last April the boy was taken ill with spinal meningitis. By careful medical treatment his life was saved, but he was left a paralytic by the disease. So complete was the paralysis that even the tongue was unable to perform its functions, every voluntary muscle of his body being paralyzed. It was thought at the time that he could live but a short time in such a helpless condition, but as the time wears on he seems to grow but little weaker and death is yet apparently far off.

The strangest feature of the case is that life should be maintained so long on the food to which he has been restricted. The muscles of the throat and tongue being paralyzed it is impossible for him to swallow and every ounce of food which he has received in these sixteen months has been conveyed to the gullet by means of a quill. In this manner small allowances of milk, whiskey gruel and juices of fruits have been administered to him daily.

OVER WHIRLPOOL FALLS.

Carlisle D. Graham Successfully Makes His Fourth Trip in a Barrel.

NIAGARA FALLS, N. Y., Aug. 26.—Carlisle D. Graham made his fourth trip through the Whirlpool rapids Sunday at 4:10 o'clock. His other three trips were made in 1889 and 1887, and after the last of them, Kendall, the Boston policeman, swam the rapids with nothing on except a life preserver. Since then Graham has been trying to build a barrel that would carry him over the Horse Shoe falls, and it was for the purpose of testing his latest contrivance that he made the run yesterday.

The new barrel had two bags of sand weighing about thirty pounds inside and attached to the bottom were two pieces of railroad iron weighing about seven pounds. The weight kept the barrel nearly straight. The barrel did not stop at the whirlpool, but hugged the shore and continued down the river to Lewiston. The whole run seven miles was made in just twenty-five minutes.

## Destructive Flames.

Kansas City Suffers a Heavy Fire Loss.

WHICH IS ESTIMATED AT \$150,000.

A Sudden Change of Wind Saves the Immense Packing House of Swift & Company from Total Destruction—Narrow Escape of Miners from a Mine Fire—Other Fire Losses.

KANSAS CITY, Mo., Aug. 26.—The immense packing house of Swift & Company, at the corner of Berger avenue and First street, in Kansas City, Kan., was saved from total destruction to-day by fire Sunday by a fortunate shift of the wind. As it was, the smoke house, a structure of corrugated iron, and the rendering house were consumed. The fire started at 9:30 in the morning in the smoke house from some unknown cause.

The fire departments of both cities responded to the alarm and were on the grounds in sufficient time to have checked the blaze in its inception. When the hose connections were made and the water turned on it was found that the pressure was wholly insufficient. Handicapped as they were, the firemen could do practically nothing to subdue the flames which by that time had almost consumed the smokehouse and had communicated through a viaduct to the rendering establishment. After the flames had had their own way for about an hour, the wind, which had been blowing in the early morning from the south, shifted to the northwest and carried the flames away from the adjoining buildings. Shortly afterwards the water pressure became sufficient to force the water from the lines of hose and in an hour from then the firemen had the flames under control.

The smoke house was totally destroyed. The south end of the rendering house was saved by a fire wall. During the fire, Master Mechanic Lutz, fell from the roof of the smoke house while attempting to descend by a rope and was instantly killed. The total loss on buildings, machinery and stock is placed by Superintendent Young at \$150,000 with \$120,000 insurance, placed with forty-two companies.

Narrow Escape of Coal Miners.

WHAT CHEER, Iowa, Aug. 26. About 4:30 Saturday afternoon the top works and building of Shaft G took fire in the boiler room, and in a few minutes was in a mass of flames. The shaft belongs to the White Cheer Coal company, and was putting out about 1,000 tons of coal per month. About 200 men were in the bank at the time, but all escaped by way of the air shafts. Thirteen out of fifteen men in the mine were suffocated. Total loss \$50,000; insurance \$12,000. One of three large boilers exploded, blowing a piece of steam pipe through a building 300 yards away. A large piece of boiler was blown a much greater distance, but no one was injured.

Oatmeal Mill Burned.

JOLIET, Ill., Aug. 26. The oatmeal mill of David Oliver was burned yesterday with \$62,000 loss. The cause of the fire is unknown. Mr. Oliver came to Joliet last spring after his mill in Chicago was blown up, and bought the property. He fitted it up at great expense for making oatmeal. It was insured for \$12,000.

Eighteen Cows and a Horse Burned.

WEST ANDOVER, Mass., Aug. 26. The house and barn of Ed. Linscombe were burned this morning. In the barn were eighteen cows and a horse, which were burned. Loss, \$5,000.

Insurance Companies Pay the Loss.

BALTIMORE, Aug. 26.—Coate's plate rolling mill at Locust Point was burned Sunday. Loss, \$16,000; insurance full.

Death of a Philanthropist.

ST. LOUIS, Aug. 26.—Henry Shaw the venerable philanthropist and best friend of St. Louis ever had, died Sunday of senile debility in his 91st year. Mr. Shaw was best known by his two magnificent gifts to St. Louis city of Tower Grove Park and Shaw's Garden, one of the finest botanical gardens in the world. His estate is estimated at \$2,500,000, the greater part of which it is supposed has been willed to the city in various requests. He was of a singularly modest and assuming nature seeking no personal glorification for the gifts. Nevertheless it was impossible for his munificence to escape frequent public recognition.

A Dangerous Desperation.

ROCHESTER, N. Y., Aug. 26.—The Herald's Cuba, N. Y., correspondent telegraphs that early yesterday morning Dr. Allen's wife was awakened by a burglar in the room where she and her husband were sleeping. She awakened her husband who attempted to catch the thief. The latter drew a revolver and snapped it, but it failed to explode. He then jumped out of the window and has not yet been captured. Jewelry valued at \$150, is missing.

A Town Killed by Mining Troubles.

SPRING VALLEY, Ill., Aug. 26. Despair is stamped on the face of every miner and business man here. Property once high in price can now be bought for a song. The Coal company will soon make a desperate effort to start the mines, and if they fail, all work will be abandoned till the first of next year. Many miners are leaving here for Pana and other southern Illinois fields.

AN OHIO RIVER DISASTER.

A Steamer Sinks a Towboat and is Shortly Afterward Burned.

CINCINNATI, Aug. 26.—A few moments before 10 o'clock last night the New Orleans steamer Commonwealth, running for the day as a Coney Island boat, collided with and sunk the towboat Lane Dock, near the Louisville and Nashville railroad bridge, and an hour later was burned to the water's edge at her moorings, foot of Parsons street, Fulton.

The Commonwealth had made her last trip from Coney Island and was about to tie up for the night, there being aboard of her only a few members of her crew.

On the Dock were ten men, comprising four raftsmen, the boat's crew of five and a friend of the engineer. After the collision the steamer picked up some of the men, landed them, and then turned her head up stream toward her moorings at the foot of Whittaker street in Fulton. The tug vessel ran her nose into the bank, hawsers secured her fore and aft, her furnace fires were extinguished, and the mate, engineers and strikers left her a little after 10 o'clock. It wasn't more than an hour after the mate and engineer went down the gang-plank before the vessel was afire from stern to stern.

The Commonwealth was 260 feet in length, very broad of beam, and her upper works were very high above the surface of the water that rippled under her broad paddle wheels. The arched paddle-boxes were thrust above the hurricane deck almost as high as the serrated ornamental work on the roof of the pilot-house. The vessel was old. Every splinter of timber in her from keelson to the jackstaff tip was as dry as an Ohio and Mississippi sun could make it. A handful of kindling wood, saturated with petroleum, thrust into a furnace, wouldn't have blazed up quicker than did the Commonwealth last night.

The Commonwealth burned as rapidly as a sun dried thatch cottage. At 11:50 every bit of the vessel above the boiler deck, from the capstan forward to the rudder aft, was ablaze with flame.

It was a tremendously gorgeous spectacle. Up in the city, beyond the elbow of hills, the reflection of the fire could be seen as far west as Price hill. Thousands of people dressed and went up in the East End to see the fiery spectacle.

The Commonwealth was an old vessel, and was purchased last summer for \$3,500, and about \$6,000 worth of repairs made on her, in the way of boilers and overhauling her machinery. The vessel is almost an entire loss, the boilers only can probably be saved. She was insured for \$5,500.

It is believed that four of the crew of the Lane Dock were drowned.

A War Vessel Sent to Hayti.

NEW YORK, Aug. 26. The sloop-of-war Galena started from the Brooklyn navy yard Sunday for Port-au-Prince, where she will relieve the Kearsarge, the latter vessel having been ordered to return north. Although the Haytian war is practically at an end, it is understood that the United States government deems it necessary to keep a war vessel at Port-au-Prince to properly protect American interests there.

Claims Self-Defense.

NEW YORK, Aug. 26. Otto Benson, aged 28, became involved in a quarrel in Brooklyn early this morning and was knocked down and finally injured. John Smith, aged 22, was arrested as his assailant. Smith admits striking Benson, but claims he did so in self-defense.

COLLISION OF VESSELS.

Two Accidents Reported from Boats Arriving at Boston.

BOSTON, Aug. 26.—The schooner John Douglass, from Rondant, which has just arrived here, reports that when off Handkerchief lights she collided with the schooner Daniel Brittain, Habaker, for Boston. The Douglass had her rails and cut-water damaged, the Daniel Brittain her jibboom and headgear carried away.

The schooner Flora Rogers, from Brunswick, Ga., reports that she was run into off Nantucket shoals Saturday by the British schooner Glen of St. John. The Rogers' jibboom and headgear carried away. She was otherwise slightly damaged.

Attempted Train Robbery.

LANCASTER, Pa., Aug. 26.—Charles D. Chambers, recently released from the penitentiary at Philadelphia, boarded the Pacific express on the Pennsylvania railroad early Sunday morning and endeavored to rob the passengers on the Pullman sleeper. Charles Murk, of Jersey City, a porter, grappled with the thief, who drew a revolver and shot the porter, inflicting dangerous wounds in the groin and legs. Other train men came to Murk's assistance and Chambers was overpowered and carried to Harrisburg where he was locked up.

A Deputy Marshal Arrested.

BIRMINGHAM, Ala., Aug. 26.—W. A. Gamble, recently appointed United States deputy marshal here, has been arrested upon a charge of accepting bribes and agreeing to have quashed certain indictments against illicit liquor men. Gamble asserts his innocence.

Died While Working.

SAVANNAH, Ga., Aug. 26.—M. T. Newnam, of Jeffersonville, Ind., contractor for the new hotel De Soto building here, died from heart disease while bathing at Tybee Beach Sunday afternoon. He was at one time sheriff of Greene county, Ind.

Struck by an Engine.

NEW YORK, Aug. 26.—Joseph Daly was struck by a switch engine near the Grand Central depot yesterday and sustained probably fatal injuries. He was taken to Bellevue hospital.

# THE EVENING BULLETIN

DAILY, EXCEPT SUNDAY.  
**ROSSER & MCCARTHY,**  
 Proprietors.

MONDAY, AUG. 26, 1889.

The success of the Democracy in the recent election in this State is thus explained by the New York Star: "This year the Democratic majority in Kentucky is double that of two years ago. It is also one-quarter greater than that of the Presidential election. There is only one explanation of these facts, and that is a steady reaction against the fallacies that first led many Kentucky workmen into the opposition that was most formidably developed in the district of Speaker Carlisle. This is now aided by the popular revolt against Harrisonism. The mean insincerity of the attempt to construe the result as reflecting upon the popularity of the Democratic National ticket is plain by reference to the vote of 1887."

GOVERNOR BUCKNER while in Louisville a few days ago paid the following high compliment to ex-Gov. Knott: "I consider his speech at Munfordville on the Saturday preceding the election the ablest political oration to which I ever listened. There may have been better ones, but I never heard them. His speech made such a powerful impression upon me that I could not help being gloomy for three or four days afterwards. He drew such dark pictures of the evils to which we are hastening under this administration, realizing it so clearly as he did, that it affected every one of his hearers. I regard Mr. Knott as one of the ablest men in our Nation, and I much regret that that speech was not published. I know it helped matters in my county, and I wish the whole State could have had the advantage of it."

## TANNER'S METHOD.

### How the Doughty Corporal Squanders the People's Money.

The following story from the Louisville Times seems almost incredible:

Corporal Tanner's extreme liberality with the public money is well illustrated by a case cited at the Bourbon stock yards. The foreman for Mr. Cheatham, the well known cattle dealer, Captain Dalton, has a son-in-law living at Frankfort. The Captain one day conversing about the pension system at present in vogue, suggested to his daughter that she write and obtain a pension for her husband. "Why, he was only accidentally scratched by a saber during dress parade," said she. "That don't make any difference, you had better try," the Captain replied. Therefore she sat down and wrote to Mr. Tanner, stating that her husband had been scratched during the war, and asked for a pension. She expected no favorable answer, as she herself did not consider that there was sufficient ground, nor had she employed an attorney, and therefore, she was greatly surprised on receiving one morning a check for \$1,200. Tanner had sent this sum on no other proof than her letter, and the Captain's friends regard this a typical case of Tanner's looseness with the people's money.

## Here and There.

Marshall Hall has returned from his trip East.  
 Mrs. Holt Richeson is visiting Mrs. Sutherland, of Winchester.

Miss Emma Schuman, of Lexington, is visiting Miss Emma Trouts.

Dr. C. S. Holton, of Richmond, Ky., attended the fair Friday and Saturday.

Major W. A. Norton has gone to Detroit, Mich., for the benefit of his health.

Dr. Skinner, of Owensboro, left yesterday for home after spending the week here with his parents.

Gavin Scott, of Patterson, N. J., and H. C. Curran, of Cincinnati, are the guests of Mrs. Hal Gray.

Asa R. Burgess, Jr., and sister, May, will be the guests of Mr. Dan Runyon during the Lexington fair.

Mr. John Hettich, of Cincinnati, who had been spending a few days with relatives here, returned home this morning.

Mr. Will McMichael and Miss Fanny Reese, of Georgetown, O., are the guests of Mrs. Thomas Boyce, of East Maysville.

Captain M. C. Hutchins and daughter, Miss Esie, have gone to Milwaukee to attend the National encampment of the G. A. R.

Misses Bettie and Emma Youny, who have been spending the summer in Chicago and Minnesota, returned home last Friday.

Mr. and Mrs. J. B. Orr and children left Saturday to spend a week or so with Mrs. Orr's parents at Paris and her sister at Lexington.

Mrs. Mary McCollough and Mrs. Maggie Leonard, of Covington, have been spending several days with Miss Jennie McCollough and sister, of East Third street.

Mr. J. G. Conkey, of the firm of Conkey & Cooper, Kansas City, accompanied by his mother-in-law, Mrs. Reeder, is here on a visit. Mrs. Conkey and children have been here for several weeks.

Mr. and Mrs. A. R. Burgess and sons, accompanied by their guest, Miss Ida Walton of Covington, will spend the week at Sulphur Glen Hotel and be present at the opening ball on the 29th.

## A SAD ENDING.

### Death of Dr. Garrett H. Holton From Injuries Received Thursday Night.

Dr. Garrett H. Holton, whose critical condition was announced last Saturday, breathed his last at ten minutes of eleven o'clock yesterday morning. At first it was thought his injuries were not of a very serious nature, but the night after the peculiar accident his symptoms became alarming. All that medical skill could do was of no avail, and he sank steadily till his sufferings were ended in the sleep of death.

The accident was a most singular one. The deceased had been acting as agent of the Standard Oil Company for some time and took frequent rides on the delivery wagon, which was drawn by a team of fine mules. On the night in question he retired to his room about 11 o'clock, very much tired out by the day's duties. Having undressed he seated himself in a chair with his feet resting on the window sill, which is unusually low. He soon fell asleep and dreamed that the mules were running off. He sprang forward to stop them and went out of the window to the pavement below—a distance of about twenty feet. These are the particulars of the accident as detailed by him to some of his friends during the rational periods just previous to his death. He was found a couple of hours after the accident by Mr. J. C. Pecor, who was aroused by his groans.

The circumstances surrounding the death render it a very sad one. He was about twenty-three years old, and was the only child of Dr. and Mrs. J. H. Holton. The funeral will take place at the family residence to-morrow afternoon at 2 o'clock. The services will be conducted by Elder E. L. Powell, of Louisville.

## DABBLED IN WHEAT.

### Sensational Disclosures in the West Union, Ohio, Bank Failure.

The well-known banking firm of G. B. Grimes & Co., of West Union, O., failed a few days ago, causing a heavy loss to many people of Adams County. A special says it was discovered Friday that the failure was brought about by the bank loaning money to a syndicate of speculators in wheat, composed of the following persons, all prominent residents of West Union: Hon. J. K. Pollard, Captain James Crawford, Hon. J. W. Shinn, Ex-Sheriff J. Mat Long, John Taylor, Henry Stroman, Smith Grimes.

The appraisers found among the bank's assets notes on four of the above named gentlemen, as follows: John Taylor, \$25,000; J. W. Shinn, \$23,000; J. K. Pollard, \$16,000; J. Mat Long, \$10,000. It is feared that little or nothing can be realized on the notes.

The bank for some time had been running on the deposits alone. The condition of the bank was made known by Dr. Lewis Grimes, of Concord, Ky., by bringing a suit in the United States Court at Cincinnati to contest the will of the late G. B. Grimes.

Smith Grimes has not yet been seen on the streets since he closed the doors of the bank. Great indignation is felt as he always declared he never speculated in wheat.

Judge Tolle appointed C. W. Sutterfield, Thomas Mullins and John Leonard as appraisers of his individual estate. They are working very hard that they may find how the business stands. There is about \$7,000 in cash in bank and \$30,000 in Cincinnati.

The assets are estimated at \$100,000 and liabilities at \$150,000 to \$200,000.

## Fine Residence Burned.

The handsome two-story frame residence of Mr. John Piles, near Mayslick, caught fire last Saturday at half-past 12 o'clock from a defective flue, and was burned to the ground, together with the contents. No one was home at the time except Mr. Piles, who is well along in life, and but few articles of furniture were saved. Loss about \$3,000; no insurance.

BLUMENTHAL BROS. & Co. have sued the "White Collar Line" Company for \$500 for failure to safely carry a sample trunk from Ashland to Cincinnati. The trunk was filled with valuable suits of clothes. THE Portsmouth Blade says: "There is a movement on foot to have a meeting in that city November 1st of the managers of the ball clubs of Huntington, W. Va., Maysville, Ky., Manchester, Ironton, Chillicothe, Circleville, Jackson and Portsmouth for the purpose of organizing a league for the season of 1890. The above cities form a pretty circuit and are well able to support eight first-class nines." Maysville can furnish excellent material for a team, and can be counted on in the above move.

THE probability is that within the next three months there will be a line of boats in the Pittsburgh and St. Louis trade again. The river freight rate between the above-named cities was always less than by rail, and the boats of the old line, while they were superintended by the late Captain J. N. Williamson, often carried freight through in less time than the railroads. The rate by river from Pittsburgh to St. Louis used to be from 10 to 12 cents per hundred pounds, which was certainly low considering the distance, about 1,200 miles.—Portsmouth Tribune.

# A BIG SUCCESS.

Closing Events of the Blue Ribbon Meeting of the Maysville Fair Company.

Fast Pacing by Don Pizarro—Summary of the Races—List of Premiums.

One of the most successful meetings ever held on the Maysville fair grounds closed Saturday. Large crowds were present each day. In fact the gate receipts show that the attendance was much better than in 1888, and the meeting then was a big success. The weather was fine, the exhibitions of live stock one of the best ever witnessed on the grounds, the display in the floral hall a splendid one in every respect, and the racing was the fastest and most exciting ever seen on the Maysville track. The remarkable time made by several horses was one of the noticeable features of the meeting. Hook's bay colt Dr. Sparks broke the record for two-year-olds in a race, making the mile in 2:25½ in the third heat. Colonel Pepper's \$15,000 stallion, Norval, got a record of 2:21½ in the 3:00 trot, and Saturday he was driven a mile with running mate to beat 2:21. He worked splendidly, never making a skip, and George Hays, his trainer, put him under the wire in 2:19½, the famous \$50,000 stallion Bell Boy's best time. This, too, on a heavy track, and with only three weeks' handling after a big season in the stud. Colonel Pepper's bay mare Hourli won the 2:20 contest in 2:18½, the fastest mile ever trotted on the track here. And then in the pacing race for three-year-olds Saturday Cecil Bros' Don Pizarro, by Gambetta Wilkes, went the first heat in 2:15½, which is only one and one-half seconds slower than the three-year-old wonder Yolo Maid's best record, 2:14. All in all, the racing was by far the best ever witnessed here.

The order throughout the week was excellent. The prompt action of Marshal Heflin and his deputies in arresting several of the toughs and shell-workers who follow up the fairs no doubt rid the town and the grounds of these objectionable characters. There was not a disturbance worthy of note during the week.

Saturday was one of the biggest days of the week. Following is a list of the premiums awarded in the arena, the directors of the day being Messrs. A. W. Thompson, John Clift, M. F. Fleming and J. C. Everett:

Harness gelding, four years old and over; C. T. Nagle, of Paris, \$20.  
Harness gelding, three years old and under four; John Bell, Flemingsburg, \$15.

Pair harness geldings, N. H. Rowland, Lexington, \$20.  
Coach Team; J. C. McClelland, Millersburg, \$20.  
Pair roadsters; N. H. Rowland, Lexington, \$20.  
Gentlemen's riding match, contestants to weigh 200 or over, one-half dozen shirts, by A. J. Clark, Cincinnati, O.; R. C. Kirk, Maysville, \$15.

The races Saturday were among the most exciting of the week. Summary:

There were several special races. Norval waegiven a mile to beat 2:21, and made the heat in 2:19½, finishing first quarter in 34½, the half in 1:08, three-quarters in 1:44. Gusto, to beat 2:52, finished the mile in 2:41. Dessie Wingate went against the watch to beat 2:30, and passed under the wire in 2:28—making the first half in 1:12. Inglewood tried to beat 2:30, but failed, the heat being finished in 2:33½.

A bicycle race, quarter-mile dash, between Elias Pearce and Charley Agnew, was won by Pearce.

Following is a list of the premiums awarded in the floral hall:

# A Big Labor Parade.

Forty-Five Thousand Men in Line.

EVERY MAN AN ACTUAL STRIKER.

The Inhabitants of London Given an Opportunity to See the Extent of Her Labor Troubles—At Least Two Hundred Thousand People Affected by the Strike—Other Foreign News.

LONDON, Aug. 26.—The well fed Londoners who are only bored by the complaints of their less fortunate brethren, found it a difficult matter yesterday to shut out from sight and hearing the immense demonstration of the striking East End laborers. When the head of their procession, on its way to Hyde park, had passed Westminster bridge, the rear was still at Blackfriars, and, walking twelve abreast, there was no less than 4,500 men in line.

These were all actual strikers and when to this number are added the laborers and artisans who have been thrown out of work through the strikes at the docks, the total number of men affected by the troubles will foot up at least 200,000. All along the line of march the streets were lined with people and the sympathizers of the crowds were unmistakably with the wretchedly underpaid laborers. This sympathy was manifested not alone in the hearty cheers with which the paraders were everywhere greeted, but in the alacrity with which the spectators dived down into their pockets when the little tin contribution boxes at the end of the long poles were shoved under their noses. All along the line of march the crowds were given this opportunity to turn their sympathy to practical account.

After the procession had passed Blackfriars bridge the well-to-do people who crowded the streets were no less pronounced in their enthusiasm than the throngs of workmen that had cheered them before. The pattering of the coins went merrily on only the coins were silver instead of copper, and now and then a bright golden sovereign would find its way from the pocket of some sympathizing shopkeeper into the little aperture at the top of the boxes. There was no disorder of any sort and the police who were out in force had nothing to do.

The strikers' procession reached Hyde Park about a o'clock in the afternoon when they were addressed by speakers from many different platforms. Resolutions were passed strongly in favor of continuing the strike.

The strikers are more determined than ever to maintain their position, and as the dock companies appear to be quite as resolute, there is no prospect of an early settlement of their differences. The loss to the community consequent upon the utter paralysis of trade is enormous and cannot even be calculated. So far the strike has been conducted peacefully, but if it lasts another week no one believes this state of things will continue. The dock companies have not been quiet. They have been busily engaged for several days making all arrangements for securing laborers from other points, and when these arrive there can be no doubt that trouble will follow. So long as they see the docks deserted and the shipping unable to move, the men are patient enough and their leaders can manage them, but once they see their places taken by others they will not look idly on.

A Disorderly Meeting.  
PARIS, Aug. 26.—M. Laguerre, the Boulangist deputy, presided at a stormy meeting of his partisans here yesterday, called for the purpose of selecting candidates to run at the approaching elections for members of the lower house. In his speech M. Laguerre declared that though he was a personal friend of Gen. Boulanger, he was not prepared to follow him blindly. He desired the triumph of the ideas which Boulanger advocated and was prepared to adopt any plan which promised that result without concerning himself for the fortunes of any individual. These remarks were not kindly received. Quarrels arose at once, which ended in such disorder that the meeting finally dispersed without selecting candidates.

The Tories Want to Fight.  
LONDON, Aug. 26.—Some of the more belligerent Tories are making no end of trouble for Lord Salisbury, and his government by their absurd demands for reprisals against the United States for the seizure of Canadian sealers in Behring sea. They want to know what is the use of having a great big navy if it is not to be used when the British flag is insulted. Some of the staunchest supporters of the government hitherto are loudest in their denunciation of what they call Lord Salisbury's milk and water policy toward the United States. It is not likely, however, that the cabinet will allow themselves to be influenced by this pressure from their own supporters, strong as it is.

The Shah in Vienna.  
VIENNA, Aug. 26.—The Shah of Persia arrived here Friday. He was received at the depot by Emperor Francis Joseph, Archdukes Charles, Ferdinand and Rainer and a number of other distinguished personages. Archduchess Maria, on behalf of the empress, received the Shah at Hofburg.

Famine in Upper Egypt.  
CAIRO, Aug. 26.—From Khartoum, Kassala, Tokar and other towns and villages on the Nile, in upper Egypt, come distressing accounts of famine. There are twenty deaths from starvation daily in Tokar alone, while in the whole stricken district the bodies of the dead are eaten by the living.

A Servant of a Servant.  
LONDON, Aug. 26.—Mr. John Taylor was fined fifteen shillings and cost Saturday for neglecting to pay the servants tax, which he should have paid on the man servant he keeps. The funny part of the story is that this Mr. Taylor who keeps a man servant is the prince of Wales' footman.

Bulgarians Buying Cartridges.  
VIENNA, Aug. 26.—The Bulgarian authorities have purchased 10,000,000 cartridges in this city, and are negotiating with a Belgian manufacturer for 50,000.

The Pope Preparing to Leave Rome.  
LONDON, Aug. 26.—The Chronicle has a special from Rome asserting that preparations are being made for the departure of the pope.

MURDER AND SUICIDES.  
Startling Tragedies Reported from Several Different Places.

INDIANAPOLIS, Aug. 26.—Edward Asman, who murdered a woman north of this city Saturday night at midnight and then cut his own throat, has revived sufficiently to tell the story of the crime. He said he and Bertha Eliff, with whom he had been intimate for three years past, had been to Kissell's resort, and on their return home had a quarrel. Becoming infuriated, he drew his pocket-knife and cut her throat, and then, horror-stricken at what he had done, he drew the knife across his own throat.

The deceased woman was a dress-maker and bore an excellent reputation. Asman is a Cincinnatian, but has been working in this city at different times for several years. He has so far recovered as to be considered out of danger.

A Rejected Lover Ends His Life.  
SAGINAW CITY, Mich., Aug. 26.—A sensational suicide occurred here Sunday afternoon. Julius Zimmerman, a prominent young man shot himself through the heart at his room on Adams street. It is said he was infatuated with a beautiful young lady, who rejected his suit. He left a sealed letter, but it was taken possession of by the coroner, and will not be opened till the inquest.

Met With Misfortune.  
TOPEKA, Kan., Aug. 26.—W. W. Clemenson, one of the oldest residents of Topeka, committed suicide Sunday morning by shooting himself. At one time he owned valuable property in this city, but has met with many misfortunes. He was a heavy loser by the raid made by Price's guerrillas in 1860, when the city of Lawrence was sacked. He was well known throughout the state.

A Despondent Englishman.  
NEW YORK, Aug. 26.—John B. Hunt, an Englishman, 22 years of age, shot himself through the heart at his residence, 208 East One Hundred and Twenty-sixth street, Sunday afternoon. Despondency is the supposed cause. From letters found in his trunk it is thought he has a wife in Louisville, Ky.

Jealousy Led to a Double Tragedy.  
CLEVELAND, O., Aug. 26.—A special from Mt. Vernon, O., says that Eliph Lybarger, a prominent Democratic politician, residing at Milwood, shot his wife last night and then shot himself through the head. Neither can recover. Jealousy is supposed to be the cause.

FLOODS AND EARTHQUAKES.  
Many Lives Lost and Property Destroyed in China and Japan.

SAN FRANCISCO, Aug. 26.—The steamer Oceanic from Hong Kong and Yokohama arrived Sunday with late Chinese advices. Further details of the bursting of the Yellow river embankments in the province of Siam Tung, July 23, state that the destruction is widespread. The breach in the river is over 2,000 feet in length, and a swift current swept through, flooding to a depth of twelve feet a large extent of the country lying adjacent. Many houses were washed away, and a dispatch from Che Foo states that the number of persons drowned is too great to be counted. Ten districts are already submerged and it is feared many more in the low lying country southwest suffer a similar fate.

The latest advices concerning the earthquake at Cumaneta, July 28, place the number of killed at eighteen and the wounded at nineteen. Fifty-two dwellings were demolished. A telegram on the 30th of July stated that fifty-three shocks had been experienced and that they continued to be felt. The inhabitants were sleeping in the open air. The same earthquake was felt in the province of Chukago. Considerable loss of life is reported, but no particulars have been received.

A Double Drowning.  
NEW YORK, Aug. 26.—August Eckman and Fred Sharer were drowned while bathing at the foot of East Seventy-first street Sunday.

Confessed to a Horrible Crime.  
MEXICO, Mo., Aug. 26.—Perry Thrall, who died Friday at Macon, Mo., confessed just before his death to having committed the crime for which another suffered the death penalty. In 1854, William Vanderventer and wife were murdered in their house a few miles from Florida, near here. Bill Duly, a colored man, was arrested, tried, convicted and hanged for the crime at Paris, Mo., a few months after the tragedy. Thrall made the confession of this crime on his deathbed.

Striking Weavers Getting Disheartened.  
FALL RIVER, Mass., Aug. 26.—The mass meeting of the weavers which was called for Saturday night to discuss the wage question was a complete fizzle. The leaders of the movement are disgusted and disheartened and make no concealment of their disappointment in the result. The strike of last spring crippled them badly, and they do not care to repeat the experiment. It is said their wages are better than ever before, and they see no chance of getting more at present.

Swore vengeance and Carried it Out.  
KANSAS CITY, Aug. 26.—James and Henry Miles, brothers, yesterday waylaid, shot and killed William Miller at Brunswick near this city. A year ago William Miller shot and killed Joseph Miles during a quarrel which resulted from Miles' attentions to Mrs. Miller. Miller was acquitted of the crime. Miles brothers swore revenge and yesterday executed the threat. They have escaped.

All a Joke.  
OMAHA, Neb., Aug. 26.—The story telegraphed from Plattsmouth, Neb., about the capture of Tascott, proves to be untrue and to be a practical joke played upon a susceptible reporter by rival correspondents, aided by a Chicago drummer and the sheriff of the county. No such person as Tascott was arrested, nor was there any arrest of any kind made.

Funeral of Carolyn, the Murderer.  
NEW YORK, Aug. 26.—The funeral of Charles Carolyn, the executed murderer, took place Sunday from an undertaker's establishment. There were no services and only three of his friends followed his body to the grave. The interment was in Calvary cemetery.

PRICES CURRENT.  
Review of the Money, Stock and Cattle Quotations for Aug. 24.

NEW YORK.—Money at 2 1/2 per cent. Currency notes, 118 bid; four coupons, 128; four-and-halves, 105 1/2 bid. The stock market this morning was dull, but prices were firm on advices of higher values in London the opening prices here were from 3/4 to 3/8 per cent. higher than they closed last night. The most prominent stocks were St. Paul and Northern Pacific, Union Pacific, Rock Island and Erie. Cotton seed oil certificates and lead trusts were the most active of the unlisted securities. In the early dealings there was a further slight advance, but toward 11 o'clock, prices took a downward turn under the lead of Richmond and West Point. That stock dropped 3/4 per cent. and the others 1/4 to 1/2. At 11 o'clock values were slightly below those of the opening. In the closing hour to noon, the market almost stagnant and the fluctuation insignificant. Even the publication of the bank statement shortly after 11 o'clock had no effect on the market, notwithstanding the fact that it was very unfavorable, showing a further decrease in bank reserve \$1,286,505. The closing prices were but little changed from yesterday's.
